

**Project: Canada Water Library**

**Architect: CZWG Architects**

**Product: Dalhem Ribba - American White Oak - 38 mm x 28 mm with 12 mm pitch**

Dalhem Ribba was chosen by CZWG to clad the inner and outer walls of this feature helical staircase to the new and already iconic central library of Southwark Council at Canada Water, Surrey Quays. Acting as an aesthetic and acoustic treatment, the versatility of the product made a complex design easier to install. This is truly a stunning space and LSA are proud to be associated with it.
