

LSA washroom systems

## The best from Europe, by design

Transform your design ideas into reality with a washroom system from LSA. For more than twenty years, we have delivered the very best in European washroom design. Combining distinctive, individual style with the strength and durability you demand, our products are characterised by their superior design and competitive price.

With a wide variety of different cubicle ranges available, we offer stylish, yet practical solutions to meet any budget or individual requirement. Choose from our range of **duct walling, vanity units, lockers, benches or baby changing tables** and you have the perfect solution for any environment.

Using the latest materials and manufacturing technology, our designers are constantly developing new products that will stand the test of time – even in the most demanding of environments. Each element is engineered to deliver dependable, long-lasting performance.

This brochure shows just a small selection of the products we offer. For more information about any of our range, please feel free to discuss your requirements with us.

**LSA. For a changing world.**

# Dry area cubicles

Understated style, long-lasting performance

*Economical in cost, but  
generous in performance  
– that's the beauty of  
our dry area cubicles.*

Simplicity and innovation are key to the LSA range of dry area cubicles. Ideal for installation away from the aggressive environments of swimming pools and areas cleaned by jet spray, they make the perfect, cost-effective choice.

Take the strikingly simple lines of the system featured here, for example. Its neat, flush fitting appearance combined with everyday practicality makes this an unbeatable choice for a wealth of applications. Its minimalist style and durable strength will give many years of reliable performance.

For offices, schools, hotels, theatres – in fact, anywhere that demands an understated style at a lower cost – our comprehensive cubicle range comes into its own. Indeed, no other manufacturer in the UK can offer such a wide selection of cubicle types.

For more information and a technical fact sheet, please contact us.

**LSA. For a changing world.**

*Choose from a range of  
door furniture, specially  
selected to complement the  
cubicle design.*

*Hanging cubicles eliminates  
the need for floor fixing.*

*Neat, thoughtful features  
include a stainless steel lock  
with built-in indicator disc.*

# Dry area cubicles

Enhanced looks, thoughtful detail

*Added style and durability to enhance any installation.*

If you are searching for a cubicle system with even more individuality and style, take the time to talk with us about our bespoke solutions. Careful attention to detail and a wide selection of door and partition finishes means that our tailor-made solutions will enhance virtually any washroom.

Combining a distinctive appearance with outstanding performance, we give you the freedom to create a truly unique washroom environment.

Smart, yet extremely hardwearing, there's little wonder that LSA Cubicles have become such a popular choice.

For more information and a technical fact sheet, please contact us.

**LSA. For a changing world.**

*Whatever your requirements, LSA will deliver a stylish yet hardwearing solution.*

# Wet area cubicles

Flexible solutions for reliable performance

*Long-lasting strength and durability, even in the most demanding conditions.*

In today's changing world you need the reassurance of LSA. Designed for use in swimming pools, leisure centres, shower rooms and other demanding locations, our wet area cubicle range will provide exceptional levels of performance. Doors and panels are manufactured from water-resistant, solid grade HPL laminate. This material is virtually indestructible; it is both scratch and impact-resistant to help retain its good looks for years to come. A tough anti-graffiti finish is also available, for use in more aggressive locations.

Our designers can even offer a special anti-vandal HPL dividing panel with aluminium sheets running through the core material for enhanced strength and durability.

A complementary range of duct-walling and vanity units – made from the same material – is also available. So too, is a choice of lockers to add the final touch to changing room planning.

Optional designs are available incorporating doors and partition walls in a 40 mm thick sandwich construction, covered with a laminate or steel facing material.

And to help make your life a little easier, we even offer a full planning and installation service, using our skilled and experienced team.

**LSA. For a changing world.**

*Trust LSA to deliver top quality design and functionality.*

# Duct walling

## Plumbing and ducting solutions

*Flush-fitting duct walling  
for a fully integrated,  
contemporary  
appearance.*

For a modern, streamlined look to your washroom, there's simply no better solution than duct walling from LSA.

Designed to hide unsightly services from view, our décor panels are directly mounted onto a custom-built aluminium framework. They are invisibly fixed and can be removed without tools for essential maintenance. And because the panels are manufactured and installed to suit site conditions, you can trust that they will be a perfect fit.

LSA understands the need to provide a full fitting-out service. So our skilled fitters can install cubicles, duct walling, vanity units and lockers. For an immediate impact in any washroom environment, there is only one choice: LSA.

**LSA. For a changing world.**

*Streamline your washroom  
and simplify installation  
with contemporary duct  
walling from LSA.*

*Stylish duct walling neatly  
conceals services while  
offering easy access for  
maintenance.*

# Vanity units

Sophisticated and enduring style

*Enhance any washroom  
with traditional or  
bespoke vanity units  
from LSA.*

Turn a simple washroom into a powerful design statement with a vanity unit from LSA.

In keeping with our philosophy to give customers the widest possible choice of materials, we can offer post-formed solid grade laminate, plywood laminate and a comprehensive range of solid surface materials, including Corian®. Other special finishes can also be supplied to order.

LSA vanity units give you the freedom to create the ultimate expression of contemporary washroom styling. Add a generous collection of bespoke items including pelmets, mirrors and dividers and you have an unbeatable range at your fingertips.

Visitors and staff alike judge your business or building by the appearance of your washroom. With LSA as your partner, a positive image will be assured.

**LSA. For a changing world.**

*Solid surface material top  
with inset basin adds a final  
touch of quality and style.*

*There's no mistaking the  
style of our elegant, hard  
wearing vanity tops and  
finely sculpted washbasins.*

# Other products

Versatility to meet your needs

*Special washroom requirements? Trust LSA to help!*

No two washroom installations are the same. No-one knows that better than LSA.

With nearly two decades of experience behind us, our dedicated team of designers can create a range of high quality products, such as lockers for wet or dry areas and bench seating, with a refreshingly different look. Whatever the environment – from leisure centres, schools and colleges to hospitals, industrial facilities or commercial developments – all have benefited from the distinctive style and innovative detailing that only LSA can provide.

For lasting quality, style and value, there is no finer choice than LSA.

**LSA. For a changing world.**

*Attractive, long-lasting lockers are an LSA speciality.*

*LSA bench-seating for comfort and convenience.*

*Even in the most demanding locations, LSA lockers retain their good looks for years.*
