To our loyal and respected customers, colleagues, and friends,

The global spread of COVID-19 is affecting workplaces across the board with extending uncertainty regarding means of production, transport, and construction for our projects and sites across the UK and Ireland during the coming periods of distancing, isolation, and potential lock-down moving forward.

Although there is some uncertainty surrounding the supply-line in the coming weeks our comprehensive design and sales process generally exceeds this timeframe and we are confident to work with you planning for future projects.

Due to the nature of our business we are fortunate to be able to move our work outside of the office; all members of staff will begin working out of their homes when necessary in order to practice appropriate measures to keep ourselves and those closest to us safe.

We will all be contactable by phone and email via our landline number (+44 (0)1376 501199) as well as any mobile numbers you have for our team and we will provide consistency in our services.

As a family run business, we understand the importance of community and what it means to support each other throughout challenging times like this. We encourage everyone to take care of themselves, the people they love and their communities. We will continue to do our very best to remain strong and positive through these uncertain times.

We thank you for your continued support and loyalty and we will see you on the other side.

Sean, Jamie, Simon, Rebecca, Alex, Jermaine, Nicki, Nadia, and Les.
